

MUST GERMANY BE RESTORED AT ALL COSTS? OR OTHERS? SHALL SHE KEEP STOLEN TERRITORY? IS IT FAIR?

WASHINGTON, D. C., March 8.—In Order That Germany May Prosper And Pay Her War Debts, People Made Serfs By German Greed Would Continue As Slaves—If Germany Recovers, Does Her Past Record Show She Will Not Usurp Her Power Again?

By FRANK H. SIMONDS
The objectives of German policy were the acquisition of the remaining iron districts, just across the French frontier, and the acquisition of the Danube basin, just across the Polish frontier. This was long proclaimed as one of the "war aims" of the Germans, one of the demands of all their peace campaigns.

Seizing Danube Territory
Finally, in 1914, Prussia led Austria into an attack upon Denmark which resulted in the seizure of Schleswig-Holstein, and in 1918 Prussia attacked Austria, and after a successful war, annexed Schleswig-Holstein, and in 1918 Prussia attacked Austria, and after a successful war, annexed Schleswig-Holstein, and in 1918 Prussia attacked Austria, and after a successful war, annexed Schleswig-Holstein.

Now the acquisition of Prussia and Germany in these wars of conquest are precisely the foundation of the economic development of Germany.
The coal taken in upper Silesia and the Saar, the iron taken in Lorraine, the agricultural regions of France, the port of Danzig, the port of the Vistula, have served to supply Germany with the raw materials for her industrial expansion. In 1918 her population was 68,000,000, and in 1919 it was 70,000,000. In 1918 it was almost twice as great.

Partition of Poland
Thirty years later the same sovietism engineered the first partition of Poland, depriving the Poles of the lower valley of the Vistula and Frederick's conquests continued the spoliation of Poland, depriving the Poles of the lower valley of the Vistula and Frederick's conquests continued the spoliation of Poland, depriving the Poles of the lower valley of the Vistula.

The German War Spirit
Moreover, this great expansion was accompanied by the rapid growth of that spirit which produced the war. For two decades Germans complained that their own country was not entitled to territorial increases; they planned attacks upon their neighbors because their own population had expanded so rapidly that new territories were necessary; and they marked out for themselves the regions of the world which they believed they were entitled to.

Will Germany Shrink?
If Germany did not, could not accept the limitations of 1919, how can she accept those of 1919? If Germany did not, could not accept the limitations of 1919, how can she accept those of 1919? If Germany did not, could not accept the limitations of 1919, how can she accept those of 1919?

Geneva, Switzerland, March 8.—The St. Gallen Tagblatt published an interview with D'Annunzio, of which the following is an extract:
